# Assembly Instructions

Kit includes: Top, Base, tambour wrap, Wire kits (x2) and Poster supports (x4)

Place the base on the floor with the ridging uppermost. Attach the tambour to the base.

Make sure that the hook fastener on both the tambour and base fit securely together.

Place the top onto the tambour wrap and secure using hook fastener.

Fasten each wire kit to the brass inserts on the base. (non-adjustment end of wire kit)

Fasten the adjustment end of each wire kit to the brass inserts on the top.

Turn the wire adjuster to pull the wire kits into tension.

Using a 2.5mm Allen key, clamp a screw in each poster support.

Using a 2.5mm Allen key, unfasten and remove the grub screw from each poster support.

Fasten the poster support to the edge of the rigid substrate.

Slide the support wires into the groove of the poster support.

Attach the poster support to the wires by re-fastening the grub screw.
