Hardware Specifications
Assembled dimensions:
1000 (h) x 1000 (w) x 500mm (d)

Weight
Hardware weight:
15kg
Load bearing weight:
50kg approx

Assembly Instructions

Includes

- (A) Base
- (B) Loop Nylon Wrap
- (C) Therformed Top

To attach the wrap place the base on the floor with the hook side facing upwards then simply locate the wrap in the centre of one side and begin to attach the wrap

Continue to attach the wrap around the base until fully attached

Once the wrap is fully attached make sure that the wrap is butted up against each other to make a seamless join

To attach the top simply lower the top into place and make sure that the hook and loop is attached all the way around
