FlexiCurve | fully flexible portable display system

A professional scalable system of flexible panels, display shelves, counters and screens that can be reconfigured for multiple events.

Create an immediate indelible impression with stunning looks, infinite flexibility, extremely user-friendly with durable metal construction.

Flex each graphic in any horizontal direction to create the stand shape you need!

The links produce a strong, stable framework whatever shape you create. All graphics are the same width so you can interchange, add or remove sections to achieve the look and size you need.

- ✓ **Highly Adaptable** create a straight, curved or circular wall using as many panels as you need
- ✓ **Tool-free Build** set up is fast and simple
- ✓ **Strong Construction** for incorporating doors, product shelves, counters and screens
- ✓ **Easy to Transport** ideal for self-build
- ✓ **Robust metal engineered framework** for durability and longevity of your investment
- ✓ **Interchangeable and replaceable graphics** for all modules giving a great ROI

The ultimate flexible display system that's durable, variable in shape and layout with multiple shelf, counter, door and display options. It is tool free, easy to build and transport.

STEP 1

STEP 2

STEP 3

STEP 4

FlexiCurve assembly in 4 easy steps

1. Place the foot plates on the floor, open the clamp on a vertical support, align and lock in place
2. Locate the flexible beam into slot and push down into place
3. Slot together panel frames to form the graphics support structure
4. The graphic panels locate into slots for easy alignment and are held magnetically

Counters, shelves & product display units are available as pre-configured standard modules

"Just an email to let you know we were very pleased with our stand and it was so much more professional and striking than what we have had in the past, compliments from competitors too!"

The stand Bayer stand reconfigured using the same modules and the existing graphics to create a 4 x 6m layout.

Dufeu IT Solutions Ltd 3m x 4m

FlexiCurve in Action at NEC Birmingham

Exhibiting
Made
Smarter

Great company to work with! Daniel contacted me as we were exhibiting at the FIT Show, NEC Birmingham and he left me with a great first time impression, Brian then came out to do a demonstration of their FlexiCurve and it really fit in well with our vision for our first exhibition stand. Sarah was then in touch and handled a lot of the communication and changes with the design team which was very helpful. The communication and prompt response was excellent and the overall look of the stand was very impressive. Thank you for all of your help!

"We selected Parkes Display and Expo to provide the stand for us at the Sales Innovation Expo and I've got to say that the work that they've done is amazing. Everybody who is walking around the stand is looking at it.

The graphics are excellent, we have a coffee machine here, we have good lighting and I think we really stand out from the crowd. Together with the stand and our bold t-shirts, I think we have captured the whole crowd. We have had visitors all day today and yesterday, so I can truly recommend Parkes Display and Expo for building the stand and we are going to go to them again next year, so definitely recommend it.

"I wanted to add how impressed we were with the professionalism of your team and the care showed when constructing our stand. The stand looked great. Thank you for all your help!" - Daniel, Millbarn Packaging

"It is a delight working with Parkes as they assist throughout the exhibition process with ease. They have been extremely informative from the outset of creating our stand, through to continuing to provide support for each exhibition we attend. Without a doubt, we have no hesitation recommending Parkes to any company looking for a polite and professional service! The warehouse team have mentioned that the exhibition stuff arrived with us last week, so thanks for arranging that to come back". - Kelly, Tinware

FlexiLight

The **FlexiLight** is a visually impacting bendable display system... Its lightweight, designed for ease of travel and a single person tool free assembly and can be as large or small as required.

FlexiLight is easy to carry and very compact. This, allied with tool-less assembly, means the system can be set up quickly.

Add more panels and create a display that can bend and flex to suit your venue.

You can re-use and reconfigure it over and over again, saving you both time and money.

Ideal for any venue...

- ✓ Flex the display to almost any shape
- ✓ All graphic panels are the same size and can be frame mounted or used as a flexi-link
- ✓ Lightweight, compact and portable
- ✓ Easy to assemble
- ✓ Carry case converts to a counter
- ✓ Upgrade carry tube to a wheeled case with counter top for **£100.00**
- ✓ Bright LED flood lights to illuminate your stand **£35.00** each

"Thanks again for all of your help with the production of the stand. It is so nice to find a supplier who offers truly great customer care. It is a lot rarer than people think." Neil – Bespoke Commercial Cleaning

The lightweight solution of the **FlexiCurve**. Designed for ease of travel and single person tool free assembly.

"The stand worked really well, it did everything we thought it would. Went up really nice and easily - looks great, TV and media player worked well, nice quick breakdown, couldn't fault it, it did everything as promised. We really appreciated your service - not often have a company been so responsive and provided such good customer service, our MD was impressed and asked if the graphics was 'one sheet' as he couldn't see the joins. Thanks again for your excellent service!"

"I just wanted to show you our stand which we took with us to the Future Powertrain Conference this week. We are really pleased with it, it looked really good. It certainly got people's attention. Many thanks for all your help in getting this stand delivered in time for our tight deadline."

CubeLock | robust, adaptable and very easy to build

The **CubeLock** is a reconfigurable stand building system that assembles with a simple tool free 'twist 2 Lock' action. The visual impact of the **CubeLock** system is that of a custom build stand appearance. It is a robust design to hang large screens, shelving units, storage areas and arches, yet is also highly portable.

CubeLock features

- ✓ Can be used with screens, shelving and product displays
- ✓ Durable aluminium reconfigurable structure
- ✓ Easy to assemble - No tools required
- ✓ Renewable fabric, foamex or rollable graphics
- ✓ Available to loan or buy

Twist2Lock, it's that simple...

"Parkes worked seamlessly with J M Posner to achieve this stand with a very tight budget and timeline and delivered everything on time despite extreme weather and snow to contend with."

The key components consist of an aluminium beam and a connector which join together with a brilliantly simple, **Twist2Lock**' action.

"We have a 4 x 4m stand corner plot and would like an arch and lots of speakers for the Restaurant and Takeaway Show in Sept at ExCel".

"Brian and his team at Parkes have done an amazing job on the stand, they helped us from the start through to the stand build".

"Customer service has been absolutely amazing and as you can see the stand looks great. 100% recommend Parkes to anyone and happy to give a recommendation".

TECHSPEC

We are currently looking for an alternative for an exhibition stand for Lamma Show 2024.

We currently hire a stand which is 6m x 10m which includes the following:

- Area to serve and make tea and coffee
- Seating for 20 in a cabaret style
- Cloakroom- where we can hide a fridge and employee belongings
- TV wall display

If this is something you can offer it would be great to get a quote from you and talk further about what we would require.

From Richard and I, we just wanted to say thank you both for all your help with the organisation, creation, and execution of the stand for LAMMA 24. It is much appreciated, and we look forward to working with you again in the future across our events

// Thank you for doing such a great job with the Pestex stand this week. As always your team were super professional with the build and breakdown, please pass on our thanks for that (and their patience as we hung around taking pics when they had deadlines to hit). The whole stand looked fantastic, it was the talk of the show. **//**

TECHSPEC

"We're open to any ideas that will give the stand some height and visibility, Maybe a scaffold type tower built inside the room created within the FlexiCurve unit and a hanging display?"

Indigo 6m x 5m
At Ei Live Show, Sandown Park

Exhibiting
**Made
Smarter**

"We have a show on 10th/11th May, Ei Live Show, I am interested in stand like yours but with lots of shelves on to put things like speakers, screens and cameras on".

Blazequel 6m x 4m
At RMW Show

Exhibiting
**Made
Smarter**

"We're really pleased with this, last time the company we used only supplied foamex graphics and you could see the seams everywhere ... this looks so much smarter with the seamless fabric graphics!"

FabriFold | the fabric wall solution

Retaining the highly portable design of the pop up, the innovative **FabriFold** creates a seamless display that is very quick to erect.

Ideal for video recording, trade shows, conference backdrops and other presentations.

Create a straight wall or a continuous 90 degree corner (ideal for shell schemes)

Reverse printed graphics create an island display (ideal for space only stands)

Replacement graphics readily available

- ✔ Straight and sits flat to a wall, no curves taking up valuable space
- ✔ Textile graphics – easy to fold up
- ✔ Frame collapses easily into wheelable soft carry bag
- ✔ Lightweight, easy to carry and travel friendly

Framework and graphics fit into bag 880 x 350 x 190mm

Anti reflection graphic makes it a great backwall for video and photography presentations.

Choose your fabric wall

The **FabriFold** comes in three different widths shown below

Price includes: framework, carry bag & printed graphics on the front and two sides

1508mm wide x 2242mm high x 343mm deep	£549.97
2242mm wide x 2242mm high x 343mm deep	£749.97
2974mm wide x 2242mm high x 343mm deep	£899.97

Replacement Graphics

1508mm wide x 2242mm high x 343mm deep	£399.97
2242mm wide x 2242mm high x 343mm deep	£499.97
2974mm wide x 2242mm high x 343mm deep	£599.97

"The FabiFold is great, it worked well for us"

FabriFold is 2.25m high, designed to fit inside shell schemes

ShellFix | seamless graphic solution for shell schemes

The stretchable graphics have a special edge that slides into the frame, which holds the fabric taut creating a high class seamless graphic wall.

ShellFix features

- ✔ **Suits any stand size** - no foot print
- ✔ **Self assembly** or use our install service
- ✔ **Fabric is light** to carry and compact to store
- ✔ **Fabric is renewable, recyclable and replaceable**

ShellFix Graphics fitted in a 6 x 3m shell scheme

The ShellFix frame fixes to the shell scheme vertical posts, and complies with all known regulations for fixing to shell schemes

ShellFix Graphics on 7x2.5m stand

"Just thought I'd send a photo of our stand with the graphics up. We are all really impressed with how easy it was to assemble and how the fabric is taut across 7 metres. We think it looks great."

We are delighted to have won the medium shell stand wall here at Saltex. A lot of the thanks goes to Parkes for providing us with the wonderful graphics for our stand. Thank you ever so much for you and your team.

RollFlat | rollable infill panels

A fast and simple way to cover the shell scheme walls with your branding.

- ✔ **Lightweight** and rolls up into a transport tube
- ✔ **Maximise** floor space
- ✔ **Fast and simple** to attach
- ✔ **Reuseable**
- ✔ **Durable** with antiscuff coating
- ✔ **AntiGlare** surface

"Just an email to let you know we were very pleased with our stand and it was so much more professional and striking than what we have had in the past, compliments from competitors too!"

Competing for attention?

Stand Solutions to create an immediate impression

Modular & Reusable Stands configured in a unique way to create an instant impact

How We Work

Send Us a Sketch!

We'll transform your sketch into a presentation and put together a quote. Then when you have confirmed the project... We will provide graphic panel plans for your designer or you're welcome to use our design team.

Training Service

Self building? We'll supply you with build drawings and offer you a training service.

- ✓ The fastest way to build robust medium to large stands
- ✓ Easy to create sleek overhead arches and curves
- ✓ The strongest modular system for mounting and displaying products, creating columns, rooms and enclosures
- ✓ Rapid assembly with tool-free connectors
- ✓ Simple levelling system that accommodates uneven floors

Exhibit Smarter

Helping to make your ideas reality

Sustainable Solutions

Using environmental friendly product and processes
